

Weaving Professional Education into our Practice

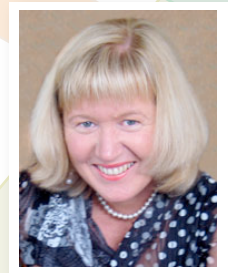

# INSPIRATION DAYS

## The Arts

### Building children's identity as an artist

This seminar will explore both the barriers and the enablers around building children's identities as artists.

We want children to explore art in a way that will engage them in creative experiences in the world of art. In so doing we will be nurturing the foundation of artistic engagement for the rest of their lives.

Wendy Lee

Julie Killick

### Move Over Michelangelo

How do you feel about yourself as an artist? Do you feel confident to support children to develop their artistic abilities?

In this workshop we will explore some hands on ways to free up the artist within! We will look at rich art environments, and inspiring examples of great teaching practice in the arts.
