

# ELP Seminar Series

## Conversations with Pen Green

Pen Green's Baby and Toddler Nest is a high quality care and education setting for children aged 12 months to 3 years. The space is set up as an open plan workshop environment, enabling children to access the resources they require freely. This encourages the children to move around independently making their own choices and decisions about their play and learning experiences. The provision of sleep baskets allows the children the opportunity to take a rest or have a sleep, according to their own natural sleep rhythm.

**Tracy Gallagher** is the Deputy Head of Centre at Pen Green, in Corby, UK. She is currently leading the Baby and Toddler Nest at the Pen Green Family and Children's Centre.

**Felicity Norton** is currently a Principal Researcher at the Pen Green Research Base and has previously worked in a variety of early childhood settings in a range of roles in the UK.
