

STRENGTHENING INFANTS AND TODDLERS

**A Ministry funded Professional Learning Programme
SELO: Strengthening Early Learning Opportunities**

Ko ia kāhore nei i rapu, tē kitea
'He who does not seek will not find'

"What children observe most closely, explore most obsessively, and imagine most vividly, are the people around them. There are no perfect toys; there is no magic formula. Parents and other caregivers teach young children by paying attention and interacting with them." Alison Gopnik

Enhancing care and learning for Infants and Toddlers: Shifting practice in early childhood education

Programme Highlights:

- An opportunity to "step-up" and take on the role of Centre/Service Facilitator, helping to lead change and act as a mentor in your centre
- In-depth workshops with ELP Professional Learning Facilitators
- In-centre visits and support
- An internal evaluation focus/ research question and outcome statement relevant to your specific setting
- A chance to learn about different critical inquiry approaches including: action research, internal evaluation, and appreciative inquiry
- Access to research, resources, and external experts, that will expand your knowledge and understanding
- Ongoing mentoring, contact, guidance, and support from professional facilitators and the community of practice in your infants and toddlers cluster group
- Opportunities to widen your professional network and strengthen your organisational culture
