

# Kindergarten at the Farm

A lamb, giant puddles and some trees

## Rylee

Lamb feeding has not really started but today we got to meet a very special lamb - Minnie. Janine introduced her to us and explained that she needed extra looking after so was living with Janine for a while. Later we went for a walk to check our garden - some of the trees are getting big. The electric fence was on though, so we couldn't get too close. We did find lots of giant puddles and ponds to splash in - that was great fun! Some were quite deep - over the top of some gumboots. Ooops! We had great fun exploring, discovering and playing in the trees. Bear hunts, bug finding, hide and seek, finding animal tracks - there are so many ways to enjoy our farm and today we got to experience a few more!
