

# More Tinkering

There's so much to experience and experiment with in the Small Parts Bag. What will you discover today, Vallee?

Oh pretty stones, you tell me the red ones are marbles, A bit flat though! Are there more blue ones or red ones? You found one red "Marble" that is a broken half. How intriguing! Every time you look in that bag you make sure its there too.

It seemed there were about the same number of shiny blue stones and red marbles. Thank you for tidying them safely away - we don't want to lose any of them. Ka Pai, Mokopuna ataahua. He puratoke koe.

Nadine said, "What fabulous patterning Vallee! You are such a curious explorer. Happy to see you enjoying the loose parts pack, thanks for sharing Heather! Hope you and the whānau are doing well."
